# SUNSPACE

## SPACE SEEMS FULL OF SUNSHINE

### **A healthy and environmentally friendly living space is people's desire in this fast – moving society.**

In line with state-of-the architectural ideas to create full-of-skylight space, Austdoor Group have decided to establish Austdoor Northern Joint Stock Company and launched SUNSPACE Brandname dedicated for Aluminum Windows & Doors , Aluminum Facades & uPVC Windows & Doors Product.

Aiming domestic and foreign high - end markets, SUNSPACE has been producing on modern lines, operated by a team of well – trained and experienced engineers, technicians & workers with materials from leading suppliers such as: REYNAERS, TECHNAL, XINGFA, PMI, LIXIL, HUYNDAI, TOPAL... for extruded aluminum profile; HAFELE, SAVIO, ROTO, GU, KINLONG, GQ... for hardware; and AGC, SAINT-GOBAIN, VFG, HAI LONG, TECHNO... for skylight glass roof and wall systems.

SUNSPACE – Solution for Curtain Wall & Window offered by Austdoor Group has increasingly been a definite choice by Owners, professional Consultants and General Contractors for low – rise to high – rise building, which require a close – to – nature and eco – friendly living space.

# SUNSPACE TOWARDS SUSTAINABLE FUTURE

## VISION

---

To be the leading provider of curtain wall and door solutions in Vietnam  
/ To be public company with sustainable development.

## MISSION

---

Provide high quality door products and curtain walls, professional after- sale service/ Aim at using environmental friendly materials/ Ensure labor equality.

## CORE VALUES

---

Innovation/Technology/Reliability/  
Solidarity.

# FACTORY FACILITIES MODERN LINES

Quality standard has always been the basis of company development. It is the synchronous combination of modern machinery, latest technology and experienced craftsmen and technical team. Sunspace has an extremely strict production management system in which Sunspace seriously control every state of production to ensure the highest quality products. The overall control allows Sunspace to ensure excellent quality and reliability of every component or the complete door system. The factory operates on the basis of professional and effectiveness, meeting highest requirements for labor safety, ensuring quality and production schedule for works.

# LIST OF MACHINERY & EQUIPMENT AND FACTORY CAPACITY

Factory capacity reached **300.000 m2 per year** for Aluminum windows & doors and **150.000 m2 per year** for plastic doors & windows SUNSPACE WINDOW's manufacturing excellence is based on the control and management systems. Specifically SUNSPACE WINDOW's manufacturing facility is structured to ensure that project's deadlines are never compromised by product mixes, quality failures, scheduling shortcoming or safety issues.

# ALUMINUM FACADES

Modern designed, particularly focus on building facades, large aluminum curtain walls are popular today due to its high aesthetics – expanding living space and create general view of the room; Light load, high strength and durability; Easy to install and reliable to operate; Saving energy and running costs for maintenance; Designs match modern architectural styles, dividable panels or flat surface.

# STICK FACADES

Stick curtain walls are processed, manufactured at factory and assembled, installed and completed at site. This kind of curtain wall can be used for certain types of surface buildings and especially suitable for sophisticated and multiple joint structure architecture

Advantages:

- Waterproofing; Easy for transportation
- Allow constructing projects with high complexity, such as inhomogeneous and complex surfaces.

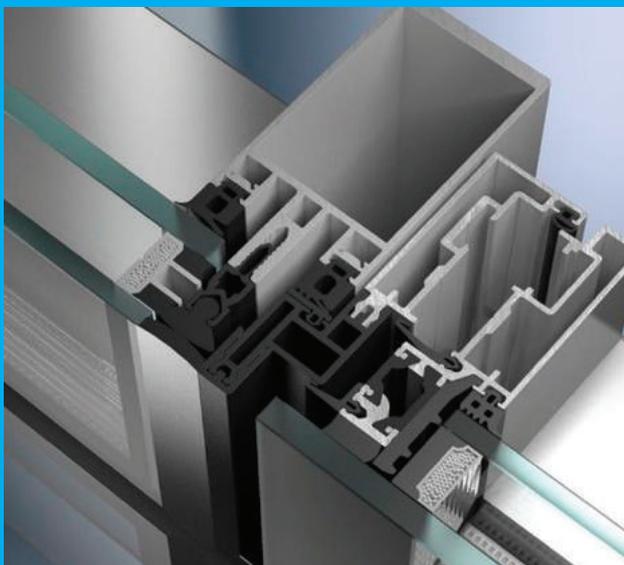

Disadvantage:

- The installation at site is complicated and time consuming
- The quality control at site is more difficult
- The installation needs conducting by well – qualified staff and engineer at site
- Warehouse area at site is required to be large to store manage material during the construction process

## FAÇADE WITH EXTERNAL CAPPING

## FAÇADE WITHOUT ALUMINUM CAPPING

# UNITIZED FACADES

Unitized Curtain Walls are manufactured, processed and completed into panels in factory, and then they are transported to construction site for final installation. Unitized curtain walls are idea for buildings which have homogeneous façade and stories with the same height.

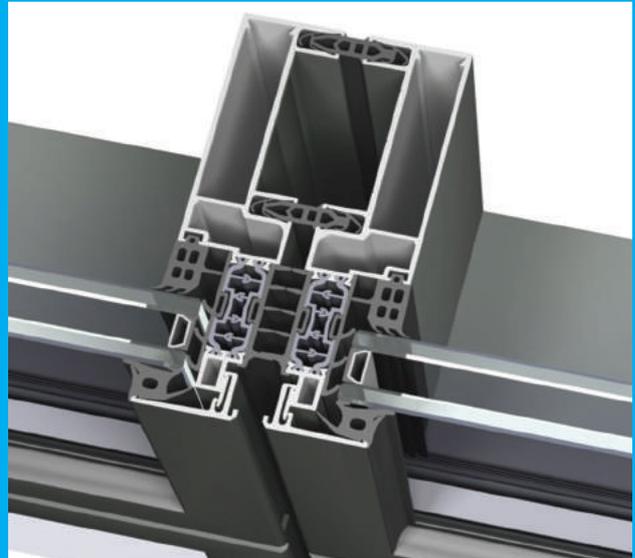

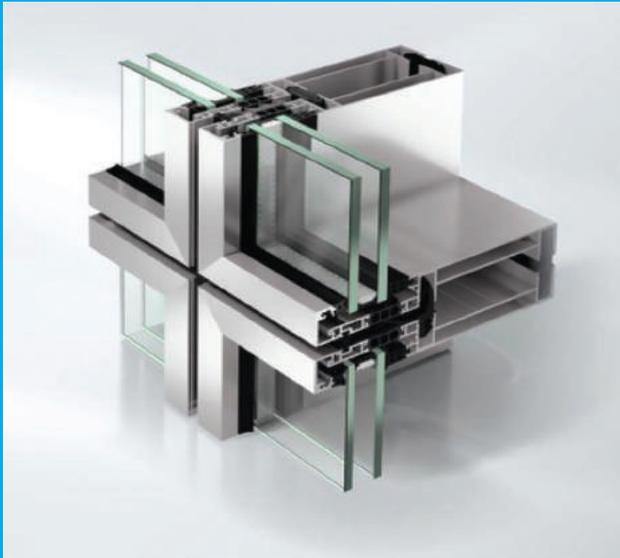

Advantages:

- Ensuring waterproofing and high aesthetic values thanks to it homogeneous surface.
- Quick installation ensure schedule of urgent projects
- Excellent stability and strength
- High thermal insulation and soundproofing and maximum air tightness
- Expanding living space and improving general view of the building.

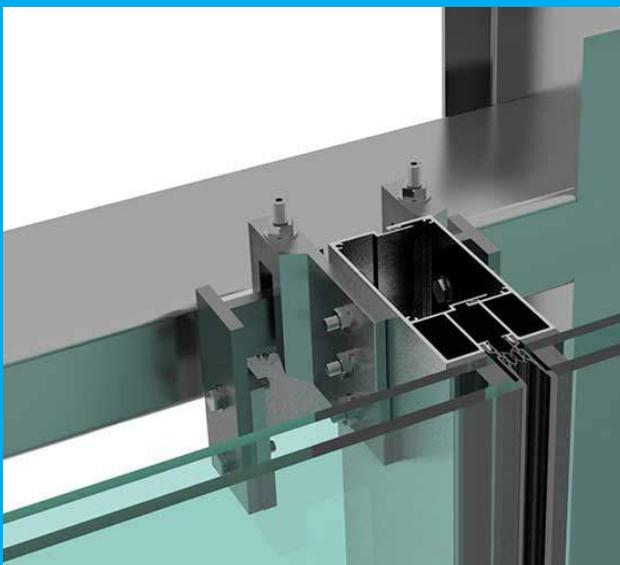

Disadvantage:

- The cost of project is not more competitive than Stick option

## FAÇADE WITH EXTERNAL CAPPING

## FAÇADE WITHOUT ALUMINUM CAPPING

# CURTAIN WALL SYSTEMS – OTHER PRODUCT

## BATH SHOWER SCREENS

Manufactured from clear glass and the highest quality material:  
Easy to clean; High quality, durable construction.  
Shower screens offer fashion and function.

## GLASS PARTITION

A cost effective way to separate work areas yet still allow light and interaction throughout your entire office space.

## GLASS BALUSTRADE

Glass balustrade system is used perfectly for internal and external areas such as stair, balconies...

## GLASS ROOF

Widely used in designing day lighting for residential, public and commercial buildings. Increase day lighting to reduce electrical lighting use and smaller sized window glazing (side lighting).

## ALUMINUM – SUN LOUVERS

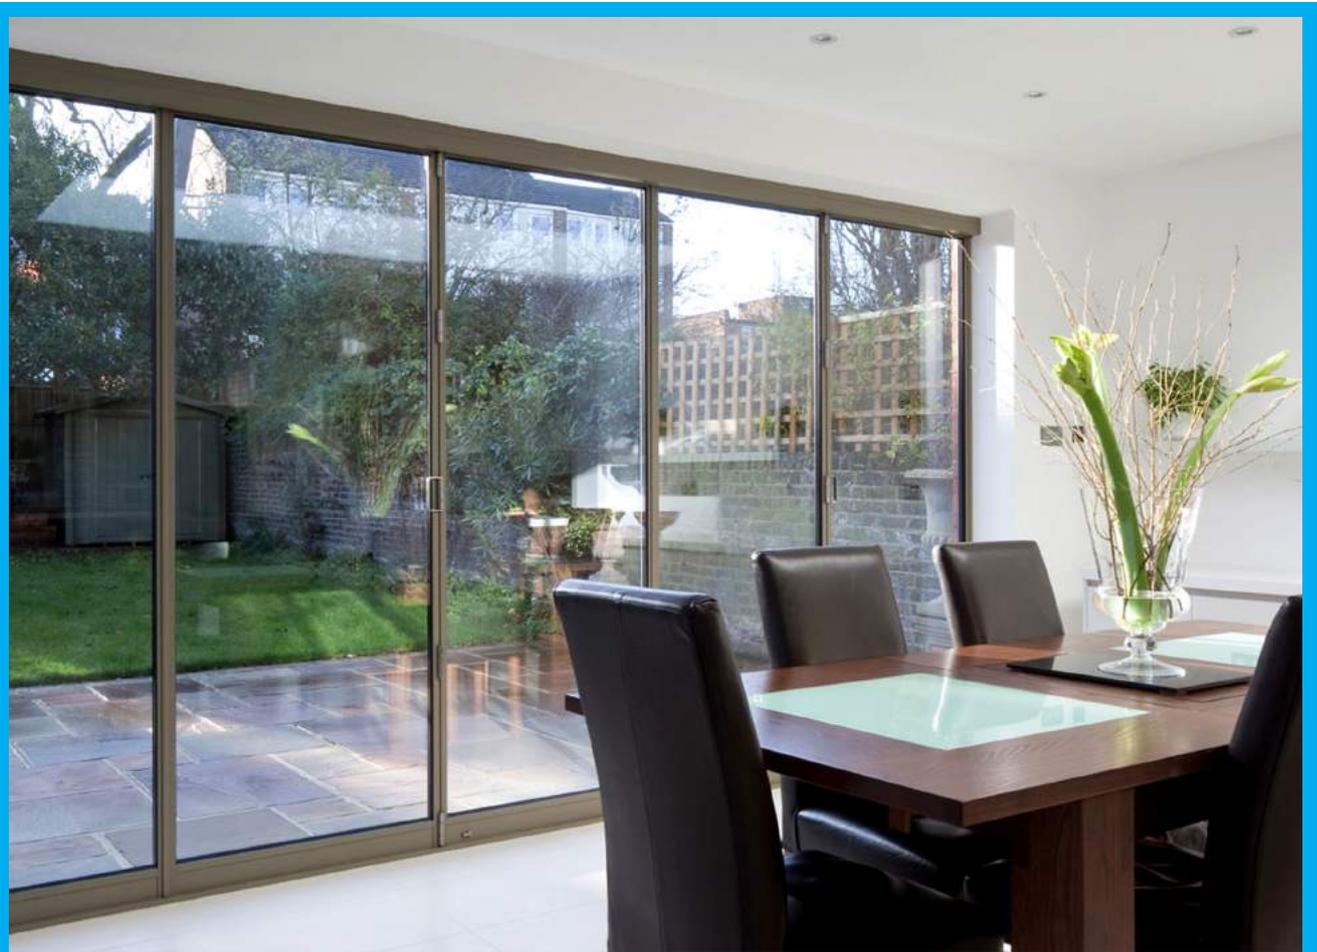

UV corrosion resistant polypropylene clips; Louver window ensures your view is as uninterrupted as possible while the tilt adjustable blades allow you control the flow of air throughout the home.

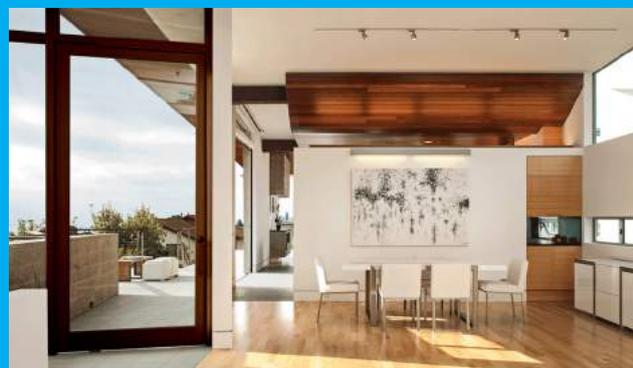

## AUTOMATIC GLASS DOORS

This is a product type where the application is universal, with stylish design, high reliability, with high level of security and low noise level.

# ALUMINUM DOOR SYSTEMS

Sunspace use genuine and prestige materials for premium aluminum door products. Aluminum profile has reinforcing plates to increase bearing capacity, ensure work safety. The light materials help to reduce weight; vibration resistance, good percussive. The powder coating painting helps to protect door surface, durable color. The big size of aluminum door makes the door wider, luxurious and creates open space for rooms.

## SINGLE DOORS

Diversified in design and size; suitable for Vietnamese custom.

## CASEMENT DOORS

Diversified in design; the big size help to widen the door, become more prestige, create open space for the room.

## SLIDING DOORS

Aluminum sliding doors are extremely versatile and practical. They are perfect for opening the inside to the outside. With a multitude of configurations available, sliding doors are an amazing fit into any project

## BI- FOLD DOORS

The size of the frame is big and strong. It combines two opening types: sliding and turning that bring various choices of space for clients. Keep your home as comfortable and energy efficient as possible.

## OUTWARD OPENING WINDOWS

Suitable for limited space, possible big size and outward open space, overall view of the rooms.

## TWO WINGS OPENING WINDOWS

Increase space of use, connected and greatly improved space, overall view of the rooms.

## AWNING WINDOWS

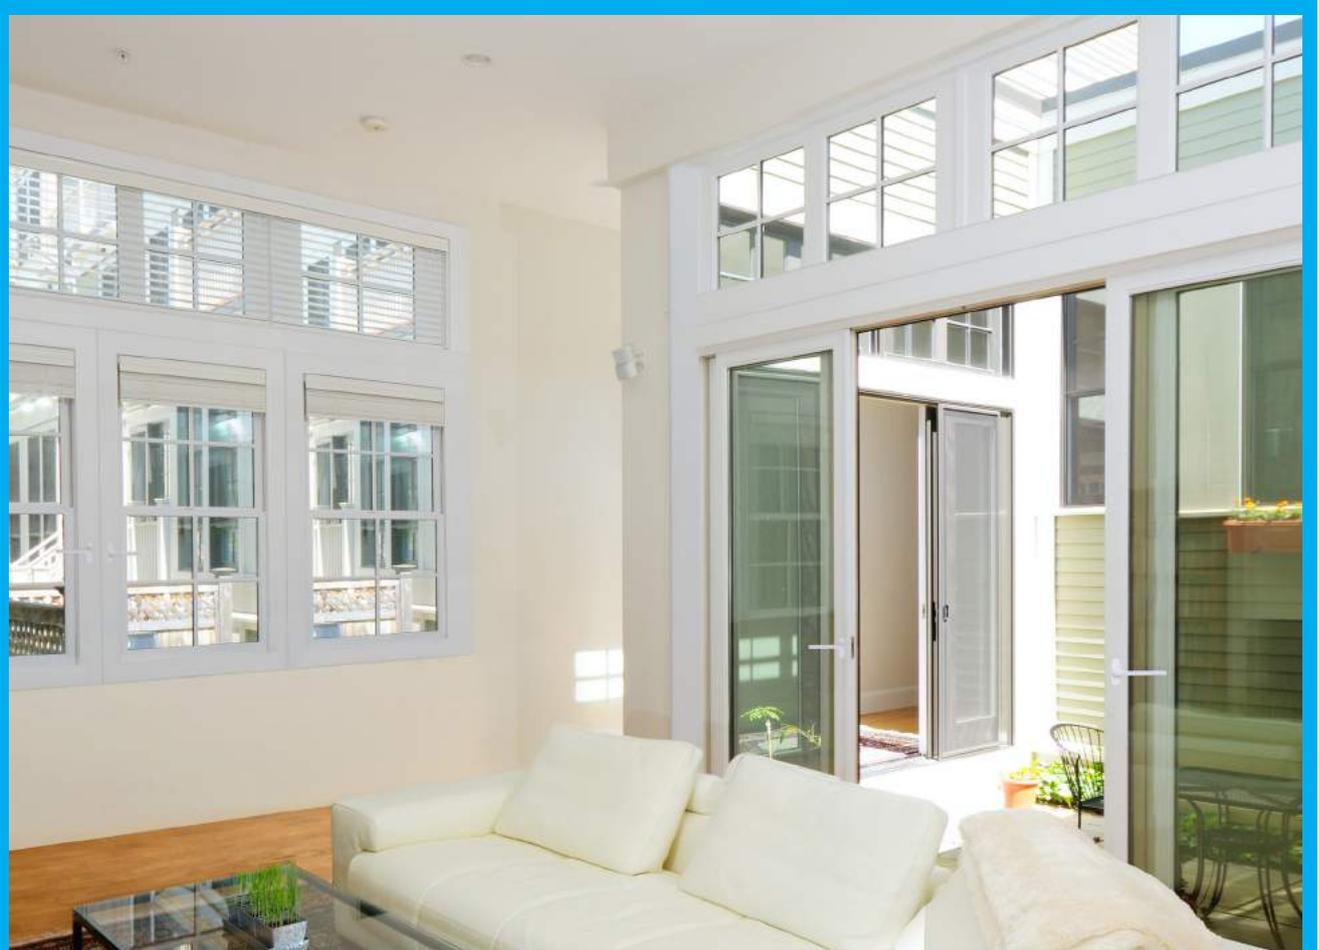

Aluminum awning windows are simple and useful window systems in both residential and commercial setting.

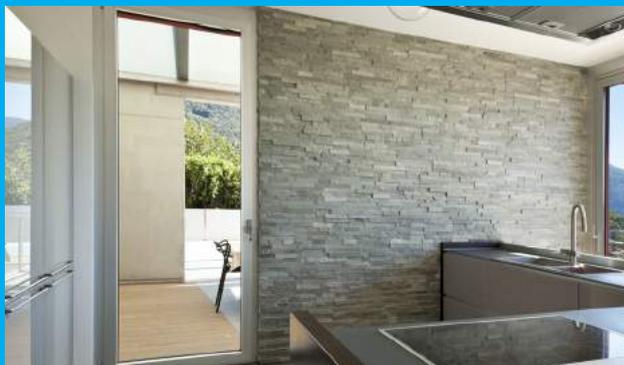

## SLIDING WINDOWS

Sliding windows are a versatile solution for all areas of the home, particularly so where there isn't much space available or there are walkways on either one or both sides.

# UPVC DOOR SYSTEMS

For premium uPVC profile for frame, sash and reinforced box steel to increase its bearing capacity, ensure durability. The double gasket system, box glazing are pumped inert gas to ensure tightness that help to reduce sound transmission. Heat transfer resulting in saving energy. The synchronous hardware and accessories enhance the aesthetics of the door products and create various opening ways.

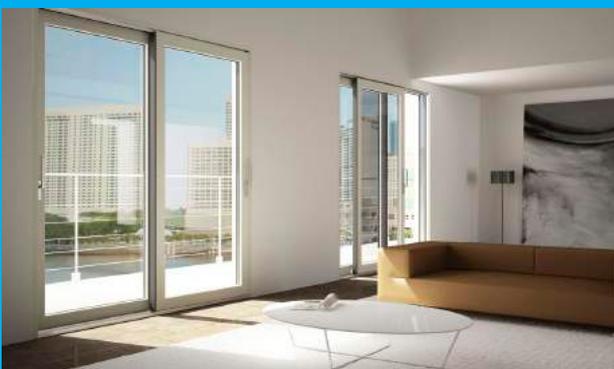

## SINGLE DOORS

The frame is big and solid. The sound and heat insulation is high. It is suitable for Vietnamese custom.

## CASEMENT DOORS

Diversified in design. It is the main entrance door with various sizes; the big size help to widen the door become more prestige, create open space for room. It can be outward or inward opening.

## SLIDING DOORS

It helps to save the space for opening; avoids the risk of extinguishing wind; and suitable for door and patio door to garden.

## BI-FOLD DOORS

The frame is big and solid. It combines sliding and turning, which brings different options for use.

## OUTWARD OPENING WINDOWS

Suitable for limited space, popular among low rise buildings.

## TWO WINGS OPENING WINDOWS

Window opening and shutting process does not affect the room inside space and area, overall view of the rooms.

## AWNING WINDOWS

Suitable for limited space, high rise building and office; allow opening for air during rain.

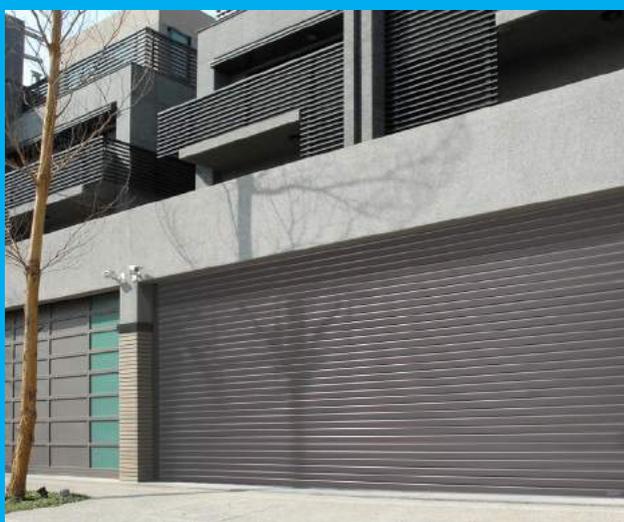

## SLIDING WINDOWS

Save using space; avoid the risk of extinguishing wind; be suitable for high rise buildings; be convenient and easy for use.

# ROLLER SHUTTER DOORS

Smart and modern roller shutter doors help to save opening space and convenient; perfectly integrate with technology on modern facilities; enhance aesthetics to be suitable for different architecture; safety and luxury.

## TOWNHOUSE ROLLER SHUTTER DOORS

Modern style makes the house become luxurious and elegant; ensure safety standards, soundproof, dustproof; enhance security with high-tech equipments.

## COMMERCIAL ROLLER SHUTTER DOORS

Use premium stainless steel, durable polycarbonate, safe and convenient for users; operate smoothly.

## GARAGE ROLLER SHUTTER DOORS

Modern European style; solid and durable, endurable operation; safe for users.

## INDUSTRIAL ROLLER SHUTTER DOORS

Particularly used for workshop; door size is big; ensuring standards of TCVN, international/import.

# SPECIAL DOOR PRODUCTS

In the event of flood, storm, fire-resistance ...door products are specifically designed from ...that meet every local or international standards as regulated in specific cases.

## FIRE RESISTANT ROLLER SHUTTER DOORS

Meet international standard Warrington UK - certificate of fire resistance BS EN 16341:2000, United Kingdom, and Police Department of Fire fight and Prevention- Ministry of Police- TCXD-VN 386:2007.

## HIGH SPEED ROLLER SHUTTER DOORS

Apply the latest German's technology; be the most effective solution for maximum restriction of changes between different environments of specialized works.

## STORM RESISTANCE ROLLER SHUTER DOORS

Special technical design, durable rays and structure, possible under harsh weather and storm.

## WOODEN OVERHEAD

Doors are made of premium alloy aluminum profile, combined natural wood such as oak, Teak, Red Alder.... which have been gone through process of modern drying, anti-warping, shrinkage, fading...

# VALUED CUSTOMERS
