SUNSPACE SPACE SEEMS FULL OF SUNSHINE

A healthy living space that is close to nature is the desire of every person in the rhythm of modern life.

Accompanying the idea of modern architecture is the need to create buildings filled with natural light. Austdoor Group has decided to launch the SUNSPACE brand, specializing in aluminum doors, glass walls, and facades.

With the goal of targeting the high-end domestic market and exports, SUNSPACE has invested in modern machinery and factories with production lines from Schueco (Germany); FomIndustrie (Italy), operated by a team of skilled, long-term engineers and technicians, alongside

world-leading material suppliers and solutions such as: Schueco (Germany); Technal (France); Roto (Germany); Lixil (Japan); Xingfa (China); Hyundai (South Korea); Topal (Vietnam); Fischer (Germany); Viet-Nhat (Vietnam)...

SUNSPACE – Solutions for Doors and Glass Walls is always proud to be a trusted supplier with customers, investors, and general contractors, with the motto of using Core Values as the guiding principle for work.

SUNSPACE TOWARDS A SUSTAINABLE FUTURE

VISION

As a leading enterprise specializing in Aluminum door, Glass curtain walls and External solution for advanced works.

ALUMINUM FACADES

Modern designed, particularly focus on building facades, large aluminum curtain walls are popular today due to its high aesthetics – expanding living space and create general view of the room; Light load, high strength and durability; Easy to install and reliable to operate; Saving energy and running costs for maintenance; Designs match modern architectural styles, dividable panels or flat surface.

STICK FACADES

Stick curtain walls are processed, manufactured at factory and assembled, installed and completed at site. This kind of curtain wall can be used for certain types of surface buildings and especially suitable for sophisticated and multiple joint structure architecture.

Advantages:

- Waterproofing; Easy for transportation
- Allow constructing projects with high complexity, such us inhomogeneous and complex surfaces.

Disadvantage:

- The installation at site is complicated and time consuming
- The quality control at site is more difficult
- The installation needs conducting by well – qualified staff and engineer at site
- Warehouse area at site is required to be large to store manage material during the construction process

FAÇADE WITH EXTERNAL CAPPING

FACADE WITHOUT ALUMINUM CAPPING

UNITIZED FACADES

Unitized Curtain Walls are manufactured, processed and completed into panels in factory, and then they are transported to construction site for final installation. Unitized curtain walls are idea for buildings which have homogeneous façade and stories with the same height.

Advantages:

- Ensuring waterproofing and high aesthetic values thanks to it homogeneous surface.
- Quick installation ensure schedule of urgent projects
- Excellent stability and strength
- High thermal insulation and soundproofing and maximum air tightness
- Expanding living space and improving general view of the building.

Disadvantage:

- The cost of project is not more competitive than Stick option
